

# 5 Ways to Save Money with CRA

What if I told you there were 5 simple things you could do to eliminate late fees, interest and penalties charged by CRA? Read on to find out how to avoid paying more to CRA than you need to!

## Schedule

Schedule your HST payment. All online banking platforms have the ability for you to schedule your HST payments to come out at a future date. This is handy if you want to wait to pay, but do not want to forget to pay!

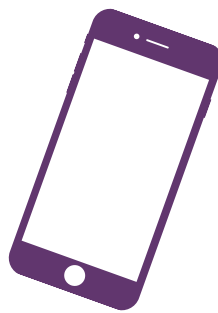

## Stop writing Paycheques

Use a payroll service, such as Wagepoint. Each payday, they will withdraw your employees paycheques, along with your payroll remittances. The service will submit your taxes to CRA for you. (On time and paid in full!)

## Use an App

Use an app, such as Hubdoc, to save copies of all of your receipts. Then, if you are ever audited, you will have all of the source documents ready to go, avoiding delays and late fees.

## Go Online

Register for your My CRA Business Account. From there, you will receive an email copy of most of the letters CRA sends to you. This is helpful for time sensitive requests, in order to avoid late fees.

## Hire a Bookkeeper

Better yet, hire a bookkeeper to take care of everything for you. We can pay your bills, keep track of receipts and correspond with CRA on your behalf. Phew!

Most business owners feel stressed and overloaded. At Pathfinder, we carry the burden of bookkeeping for you so that you can get ahead of the curve and focus on running your business.
